

How to create an Apple Developer Account - A Step-by-Step Guide

Step 1: Go to <https://developer.apple.com/> and click on Account

Sign in to your Apple account. Go ahead and create an Apple ID if you don't have one yet.

Step 2: You'll be redirected to the Terms and Conditions page. Click on the checkbox under the terms and conditions, and click on Submit.

Step 3: You'll be redirected to the Apple Developer dashboard. Click on Join the Apple Developer program section.

Step 4: Click on the Enroll button at the top right corner of the screen

Step 5: You'll now see instructions and guidelines for enrolling in the developer program. Scroll down and click on Start your Enrollment.

most jurisdictions. [Learn more >](#)

Legal Entity Status

Your organization must be a legal entity so that it can enter into contracts with Apple. We do not accept DBAs, fictitious businesses, trade names, or branches.

Legal Binding Authority

As the person enrolling your organization in the Apple Developer Program, you must have the legal authority to bind your organization to legal agreements. You must be the organization's owner/founder, executive team member, senior project lead, or an employee with legal authority granted to you by a senior employee.

A Website

Your organization's website must be publicly available and the domain name must be associated with your organization.

Step 6: Enter your personal information.

Confirm your personal information.

Legal First Name

Legal Last Name

Phone Number
91 +ext

| Country Code | Phone Number | Extension |
|--------------|--------------|-----------|
| | | |

Address

optional
Apartment, suite, unit, floor, etc.

City / Town

Zip / Postal Code

Country / Region
United Kingdom

The country/region listed must accurately represent where you currently reside. To update your country/region, sign in to your Apple ID account.

Click on Continue when you're done.

Romanized Contact Information

Enter your Romanized home or business address.

Step 7: Now, select your entity type.

An entity type would mostly be the Company/Organization (if you have a properly registered company).

Select your entity type.

I develop apps as

Individual / Sole Proprietor

Please note: In order for your company name to be listed on your App Store product page, your company must be recognized as a legal entity in your country/region. Sole proprietors and single person companies located in countries where they are not recognized as legal entities will be enrolled and be listed for download under the enrollee's personal legal name, if selected for distribution by Apple.

Apple Developer Program Enrollment

Select your entity type.

Select

- Individual / Sole Proprietor
- Company / Organization
- Nonprofit
- Accredited Educational Institution
- Government Organization

Please note: In order for your company name to be listed on your App Store product page, your company must be recognized as a legal entity in your country/region. Sole proprietors and single person companies located in countries/regions where they are not recognized as legal entities will be enrolled and be listed for download under the enrollee's personal legal name, if selected for distribution by Apple.

- You'll see an enrollment checklist. Please go through it and click on Continue.

To enroll, you will need:

- **Legal Entity Status**

To enroll in a developer program, your organization must be a legal entity so that it can enter into legal agreements with Apple. We do not accept DBAs, fictitious businesses, trade names, or branches. The legal entity name must correspond with the tax ID you plan to use and will appear on your product page for apps you may distribute on the App Store and Mac App Store. Example: Seller: ABC Company, Inc.

- **The Authority to Sign Legal Agreements**

As the person enrolling your organization in a developer program, you must have the legal authority to bind your organization to legal agreements. You must be the organization's owner/founder, executive team member, senior project lead, or an employee with legal authority granted to you by a senior employee.

- **A Website**

Your organization's website must be publicly available and the domain name must be associated with your organization.

- **A D-U-N-S[®] Number**

Your organization must have a D-U-N-S[®] Number so that we can verify your organization's identity and legal entity status. These unique nine-digit numbers are assigned by Dun & Bradstreet and are widely used as standard business identifiers. You can check to see if your organization already has a D-U-N-S[®] Number and request one if necessary. They are free in most jurisdictions. [Check now >](#)

Continue

- Enter your organization details and your DUNS number, and click on Continue.

DUNS number is assigned by D&B to all the businesses around the world. If you don't know your DUNS number or if you haven't got one yet, you can get it free by filling in your company details [here](#).

Best regards,

Apple Developer Program Support

Now that you've enrolled in APP Store Developer Account, you will need to add us to your account so we can submit the app on your behalf.

Step 1: Log into your APP Store Developer Console at <https://developer.apple.com/account> Click

on “Users and Access”

Step 2: Click the blue + button in the top-left corner of the page.

Step 3: Enter the account information for the new user.

Enter email address `info@homewellinc.net` and make sure to select Admin under Account Permissions.

The screenshot shows the 'New users' form in App Store Connect. The form has the following fields and options:

- name**: A text input field with a red border, indicating it is mandatory.
- surname**: A text input field.
- email**: A text input field containing the email address `info@homewellinc.net`.
- Functions**: A list of checkboxes for selecting user functions:
 - management
 - sale
 - App Management
 - marketing
 - finance
 - Developers
 - customer support
- Additional Resources**: A list of checkboxes for selecting additional resources:
 - Access the report
 - Access certificates, identifiers, and profiles
 - Access cloud-managed distribution certificates
 - Access cloud-managed Developer ID certificates
 - Create an app
 - Generate a personal API key

At the bottom of the form, there are 'Cancel' and 'Next' buttons.
